### OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way. and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

Result Was Confusion Among Ministers and Bartenders Who Received Them.

New York.-Somebody mixed up the circular letters prepared by the German-American association, relating to the coming saengerfest. This is what the pastors of the German churches and the representatives of Sunday schools in Newark received:

"Dear Sir: The committee of the German-American association having the matter in its care, desires to secure your services as a bartender during the meeting of the Northeastern Saengerfest of American in Newark the first week of July next."

German-American Central association, to which the pleasing task is given, invites you to meet it and your brethren of all the German churches.

"The committee desires to organize a great religious demonstration on one of the days of the coming saengerfest, a parade by the united congregations, hymns sung by a great chorus of Sunday school children, etc., etc.

"Your well-known piety and your public efforts to curb all excesses lead the committee to hope that you will cooperate with it."

#### Woodpecker Strikes Match. When a woodpecker's bill struck

match head that had evidently been left by mischievous boys its nest caught fire and the firemen saved it in St. Louis recently. The bird screamed as the blaze flared up and persons passing Twentieth street and Prospect avenue looked up to see the fire. An alarm was sounded, and in a few min- have and the best of all." utes a stream of water was put into play. The woodpecker jumped about in neighboring trees watching the work of the firemen, and when the nest was dried out by the sun later is the day, took up its old abode.

The grave of the oldest person interred in the vicinity of West Chester, | more American. this season.

### Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

### Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my

Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartly recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials

from this locality as to its efficiency and merits." Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage.

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

#### QUEER DOINGS OF MEN.

A man will always stir his coffee before drinking it. This is very foolish-

A man subjects the point of his pen to careful scrutiny before commencing to write a letter. A woman starts right off-jabs her pen in the inkpot and straightway begins to scribble as if her life depended on it.

Few men open their personal corre-Women on the other hand, tear open the envelope at once-they are in too much of a hurry to waste any time.

It is the man who lets out secretsnot by telling them, but by ill-timed silences. He does worse-by refusing to gratify the curiosity of his questioners he invariably causes them to no light will fall on the plate. A jump to conclusions much more damaging than the truth of the matter.

It is the man who reads with his back to the light, holding his book in one hand. Herein lies wisdom. A woman rests her book on the table and leans both elbows thereon. But the foolishness of the man's act lies in the fact that he is seeking comfort and seldom takes this position because it is the most scientific one. Of course, he finds it isn't comfortable-his arm aches after the first ten minutes, whereupon he puts his book down and remarks he is going out.

Up to Him.

ELEPHANTINE ELECTRICITY.

Utilization of the Huge Animals in India to Run Electric Dynamos.

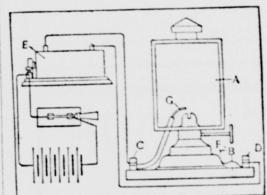

It is proposed by an enterprising Anglo-Indian to utilize the labor of elephants in operating the dynamos of an electric lighting station. He writes to Engineering (London) that his plan involves working the animals six hours a day for this purpose, and he asks whether anyone can tell him how much electric energy an average ele- hyah?" he demanded. the cost of necessary machinery. En- ter de big house?" Deacon Smith sugphant can produce in this way and gineering seems inclined to treat the gested, without enthusiasm. rise to various arrangements for proproposal with levity. Says Cosmos (Paris), in a note on the correspond-

"Engineering, in its answer, remarks that the equivalent of the mechanical power of the elephant is doubtless known in India, but no data on the subject can be found in European text-books; perhaps it may be related to that of the horse into the ratio of their respective weights. It adds that a central station run by a file of elephants continually turning a windlass or treading heavily on inclined planes would be rather a painful spectacle. Outside of these methods, however, the English paper does not see how the enterprising promoters of this plan could make the energy of the animals available. It can hardly be supposed that the elephants could be rained to project water through their "There were people who told me it trunks against the buckets of a Pelton wheel; and besides we have no means of calculating the force of such a jet, and could not conscientiously recommend the method! At this particular time when animal strength is being everywhere replaced by mechanical motive power, to the great advantage of our friends the domestic animals, the idea of hitching elephants to a dypachyderms, that the humor of the editor of Engineering will ward off from them this cruel burden."

#### ELECTRIC LAMP LIGHTER.

Kerosene Lamp May Be Easily Lighted.

A device for lighting a ruby lamp is here shown, in which a spark from he should taste it first to see if it needs a jumpspark coil vaporizes the oil and ignites it. The ruby lamp (A) is mounted on a board (B), somewhat larger than the base of the lamp. Two binding posts (C and D) are Uncle-"Aw, that's the stuff they make placed on the board and connected to spondence without looking at the post- F. The wire (G) is inclosed in a piece marks to see the time of posting. of rubber tubing, such as is used for insulating in automobiles, and the extremity so located that it will nearly touch the wick. The spark from the vibrator would spoil the plate if the jump spark coil were put in the dark room, so it should be put outside, or placed in a box, in such a way that

E ... CTRICALLY-LIGHTED KERO-

three-eighths-inch spark is about right and about six dry batteries should be used with the coil.

This device will also light an ordinary kerosene lamp and might be useful, suggests Popular Mechanics, when the lamp is in a hall or some place where it is hard to get at.

Magnetic Wells.

"The term 'magnetic wells' has been applied to wells whose casings attract and hold iron objects," says the Electrical Review. "In the study of underground waters much interesting information concerning these magnetic wells has been obtained by members of the United States geological sur-A trained nurse says: "In the prac- rey. #### AGGRAVATING ECZEMA.

Troubled Badly for Several Years with Eczema on Limbs-Another Wonderful Cure by Cuticura.

"For several years I was troubled badly with an eczema on my limbs and wrists. Physicians in several towns had prescibed for me without giving me any results. I had often used Cuticura Ointment and received relief temporarily. In the spring of 1904 I took the Cuticura Resolvent Pills and used the Cuticura Ointment for about five weeks and at the end of that time there was not a blotch on me anywhere. This spring I took a few vials of the Cuticura Resolvent Pills as a precautionary measure, and will continue to do so every spring simply as a spring tonic, as they are so easy to carry with you, and they certainly fix your blood for the ensuing year. I now use only Cuticura Soap. The Cuticura Ointment and Pills certainly cured me of an aggravated case of eczema. St. Clair McVicar, San Antonio, Texas, July 6, 1905."

### OVERDRAFTS

It is becoming well known by business men that overdrafts, whether It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small is not approved by the powers that be. This unbusinessine habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than count is always overdrawn is the man wite spends more money than he makes and will finally have no bank account.

#### INVITATIONS WERE MIXED.

Result Was Confusion Among Ministers and Bartenders Who Received Them.

New York -- Somebody mixed up the circular letters prepared by the German-American association, relating to the coming saengerfest. This is what the pastors of the German churches complain that the cost of living at the and the representatives of Sunday schools in Newark received:

"Dear Sir" The committee of the German-American association having the matter in its care, desires to secure your services as a bartender during the meeting of the Northeastern Saengerfest of American in Newark the first week of July next"

On the other hand, a large number of distinguished Newark bartenders

received this: "Rev. Sir: The committee of the German-American Central association, to which the pleasing task is given, invites you to meet it and your brethren of all the German churches.

"The committee desires to organize a great religious demonstration on one of the days of the coming saengerfest. a parade by the united congregations, hymns sung by a great chorus of Sunday school children, etc., etc.

"Your well-known plety and your public efforts to curb all excesses lead the committee to hope that you will cooperate with it."

#### Woodpecker Strikes Match.

When a woodpecker's bill struck & match head that had evidently been left by mischievous boys its nest caught fire and the firemen saved it in St. Louis recently. The bird screamed as the blaze flared up and persons passing Twentieth street and Prospect avenue looked up to see the fire. An alarm was sounded, and in a few minutes a stream of water was put into play. The woodpecker jumped about in neighboring trees watching the work of the firemen, and when the nest was dried out by the sun later is the day, took up its old abode.

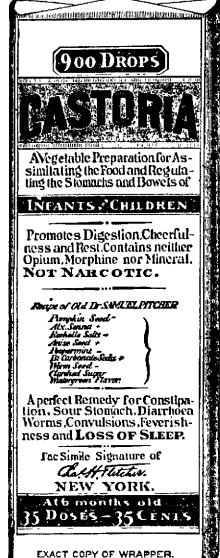

#### Old Nurse's Grave Green,

The grave of the oldest person interred in the vicinity of West Chester, The emperor of Japan has sent as Pa., that of the late Mary Preston, fied with Japanese history 300 years lavishly every Memorial day, or at

### Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

#### Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my, patients."

Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartily recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value." Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infants altiments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the case with which such a pleasant preparation can be administered a great advantage."

Is a great advantage."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

Look in page, for the famous little book, "The Road to Wellville."

ELEPHANTINE ELECTRICITY.

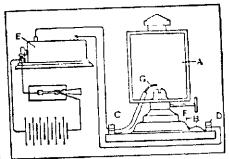

Utilization of the Huge Animals in India to Run Electric Dynamos.

It is proposed by an enterprising Angle-Indian to utilize the labor of elephants in operating the dynamos of an electric lighting station. He writes to Engineering (London) that his plan involves working the animals six hours a day for this purpose, and he asks whether anyone can tell him how much electric energy an average elephant can produce in this way and the cost of necessary machinery. Engineering seems inclined to troat the rise to various arrangements for proproposal with levity. Says Cosmos (Paris), in a note on the correspond-

"Engineering, in its answer, remarks that the equivalent of the mechanical power of the elephant is doubtless known in India, but no data on the subject can be found in European text-books, perhaps it may be related to that of the horse into the ratio of their respective weights. It adds that a central station run by a file of elephants continually turning a wind lass or treading heavily on inclined planes would be rather a painful spec tacle. Outside of these methods, however, the English paper does not see how the enterprising promoters of this plan could make the energy of the ani. mals available. It can hardly be supposed that the elephants could be rained to project water through their trunks against the buckets of a Pelton wheel, and besides we have no means of calculating the force of such a jet, and could not conscientiously recommend the method! At this particular time when animal strength is being everywhere replaced by mechanical motive power, to the great advantage of our friends the domestic animals, he idea of hitching elephants to a dyname is at least queer. Let us hope, for the sake of these sympathetic pachyderms that the humor of the 3ditor of Engineering will ward off

Kerosene Lamp May Be Easily Lighted.

A device for lighting a ruby lamp Is here shown, in which a spark from he should taste it first to see if it needs a jump spark coll vaporizes the oil and ignites it. The ruby lamp (A) is mounted on a board (B), somewhat larger than the base of the lamp Two binding posts (C and D) are place I on the board and connected to the secondary of the jump spark coil (E). A wire is fastened to binding The wire (G) is inclosed in a piece of rubber tubing, such as is used for insulating in automobiles and the extremity so located that it will nearly touch the wick. The spark from the vibrator would spoil the plate if the fump spark coil were put in the dark, room, so it should be put outside, or

E CTRICALI Y-1 IGHTED KFRO-SINE I AMP

three-eighths-inch spark is about right and about six div batterles should be used with the coil

This device will also light an ordinary kerosene lamp and might be useful, suggests Popular Mechanics, when the lamp is in a hall or some place where it is hard to get at.

Magnetic Wells.

"The term 'magnetic wells' has been applied to wells whose casings attract and hold iron objects," says the Electrical Review. "In the study of under ground waters much interesting infor mation concerning these magnetic wells has been obtained by members of the United States geological surzey. A report is now in preparation tice of my profession I have found so in which some of the magnetic features many points in favor of Grape-Nuts of these wells are described and the food that I unhesitatingly recommend causes of these phenomena discussed, and the officers of the survey would be "It is delicate and pleasing to the pleased to receive additional data on palate (an essential in food for the the subject from drillers, well owners sick) and can be adapted to all ages, and others who have knowledge of being softened with milk or cream wells of this character. a "Plain an' Pinted" Duty That Was Not to Be Misunderstood.

Deacon Smith and Deacon Jones were pillars of an Alabama colored country church. One day while storing hay in their employer's barn, Deacon Jones came upon a hen's nest, in which reposed a dozen large, white eggs, relates the American Spectator. "Now, what us gwine do bout dis

hyah?" he demanded. "Er, reckon we mout take 'em up ter de big house?" Deacon Smith suggested, without enthusiasm.

"Now, how we know dat hen b'long ter Mars Will?" Bio. Jones objected. "No, sah! Cen't take no chance on gibbin' Mars Will some yuther man's aiggs!"

"Mout leave dem hyah, den," was the queful reply.

"Now, lookyere, Bro' Smif, Ah's 'sprise I at yo! Don' de church teach us ter be kind ter all critters? And don' yo' think dat 'cludes hens? Ef we wuster leave dem aiggs hyah, dat po' III' hen woul' mink day warn't 'preciated, an' feel bad bout hit No, sah! Ouh plain an' pinted guty am ter take dem sigs out yonder in dat pine thicket whar nobody won't see de smoke, an' roast 'em "

AGGRAVATING ECZEMA.

Troubled Badly for Several Years with Eczema on Limbs-Another Wonderful Cure by Cuticura.

"For several years I was troubled badly with an eczema on my limbs and wrists. Physicians in several towns had prescibed for me without giving me any results. I had often used Cuticura Ointment and received relief temporarily. In the spring of 1904 I took the Cuticura Resolvent Pills and used the Cuticura Continent for about five weeks and at the end of that time there was not a blotch on me anywhere. This spring I took a few vials of the Cuticura Resolvent Pills as a precautionary measure, and will contime to do so every spring simply as a spring tonic, as they are so easy to carry with you, and they certainly fix your blood for the ensuing year. I now use only Cuticura Soap. The Cutlcura Ointment and Pills certainly cured me of an aggravated case of eczema St. Chir McVicar, San Antonio, Texas, July 6, 1905."

I have a great joy and it is this, that notice is hereby given that on the 10th by the grace of God, who gave himself day of August, 1906, at the front door for us, that my name is written in the of the business house formerly occupied book of life. Is yours there tonight? by the Mason Drug Company, in Ada, If it is not, God have mercy upon such I. T., on the North side of Main Street a man. How can men sit idly by when in said city, and the house in which the they know their names are not written stock is now located, the undersigned, in the book of life? If the judgement of God should break upon this audience there would be hundreds that would

conviction to this people. "The official record of heaven has no mention of sinners' names in it. There are 365 days in the year, and year after year you have rejected the son of God and hardened your heart against him and that is enough to dam any soul in the universe. You are as much in danger of hell as the greatest thief that ever trod the earth. God has record of the names. Jesus Christ stands by and when the books are opened and the names are read he stands sponsor. What a hope for man f he has his name written in the book of life. If your name is not written in the book of life it is in the book of death. Thank God for the bible for it tells the love story of God. God does not tell you to come and give your heart to him and leave your children out, but let all come. It reaches out and takes hold of the father, mother, daughter and son and unites that family together. Hell cannot prevail

against it. "It matters not how far your graves are apart, so your names are written up vonder. There is going to be a reunion that will surpass any of the earthly reunions. If every member of your family have their names written in the book of life with you, my! what a joy over yonder. God help mother, father and wandering boys to think of the home over there.

"And whosoever was not found written in the book of life was cast into a lake of fire.''

#### The Men Service.

The greatest gathering of men ever seen in Ada heard Mr. Oliver's lecture Sunday at 3:00.

Every man present was a target. Every man got shot. The bombardment lasted an hour and a half and when the firing had ceased many bodies

#### Sunday Night Service.

The greatest audience that has greeted Mr. Oliver since his coming two weeks ago, gathered at the tabernacle Sunday evening. If the tabernacle has a senting capacity for 2,000 that many heard the message.

His message was lamed at the sinners lirect. The sermon was brief but it

#### OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way. and this, it matters not how small is not approved by the powers that be. This unbusinessitke habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

#### FACE SPRUCE-GUM FAMINE.

Open Winter Prevents Vermont Gummers from Gathering Usual Supply.

Bennington, Vt.-Vermont is facing a spruce-gum famine, and consequently the Vermonter, who takes his gum after meals with as much regularity mold from its prototype or it would terested in the matter, "I will invite as the New York clubman takes his attention of owners who are desirous cocktail before dinner, is sad. Alof improvement to one class of struc- ready the retail price is two dollars a pound for the best grade of crystal hund and molded sticks (made from boiled pitch) has taken its place in

The supply of gum has been falling off steadily ever since paper makers began using spruce wood for pulp, and it is only a matter of time when there will be none at all. This year the exceptional decrease is due to the inability of the gatherers to get about readily in the woods.

The gum is crystallized pitch which exudes from the seams of the trees during the hot summer months. As the weather cools the pitch forms in crystals, and this is picked by the gatherers or gummers after the snow comes. As the best gum trees grow on exposed cliffs and rocky, uneven ground the gammers take advantage of deep snows and snowshoes to gather the supply. When there is little snow it is impossible to get about in the best reaches of forest timber and the supply dwindles.

Last winter there was little snow until March, and by that time the season had passed. Lon Bishop, of Glastonbury, who has spent 50 of his 64 years in the woods, shooting, trapping, fishing and gumming, recently brought his winter gum haul here to be marketed. He bears out the other gummers in saving that the season is the worst in his experience.

#### CAT MOTHERS SQUIRREL.

Little Stranger Is Taken by Tabby Into Her Little Family of Four.

Eldorado, la .-- An Angora cat playing the role of mother to four kittens and a trisky, bushy-tailed little squirrel, is the sight that has interested visitors at the home of Mrs. Addie A. Davenport, the past few days.

It was about two months ago that Tabby presented the Lewis household with tour fluffy little kittens, which for the comfortable basket prepared for them. Then one day a red squirrel, about as old as the kittens, and too young to take care of itself, fell out of With no means of getting it back

into its nest, it was taken into the house and fed on milk for a day or two, when it occurred to Mrs Lewis; to see if the mamma cat would not provement movement I have found adopt the stranger. So a little milk for a moment or two, and then began

Bunny was soon snuggling with the one.

#### INVITATIONS WERE MIXED.

Result Was Confusion Among Ministers and Bartenders Who Received Them.

New York .-- Somebody mixed up the circular letters prepared by the German-American association, relating to the coming saengerfest. This is what the pastors of the German churches schools in Newark received:

"Dear Sir: The committee of the German-American association having the matter in its care, desires to secure your services as a bartender dur-Ing the meeting of the Northeastern Saengerfest of American in Newark the first week of July next."

On the other hand, a large number of distinguished Newark bartenders received this:

"Rev. Sir: The committee of the German-American Central association, to which the pleasing task is given, invites you to meet it and your brethren of all the German churches.

"The committee desires to organize a great religious demonstration on one of the days of the coming saengerfest, a parade by the united congregations, hymns sung by a great chorus of Sunday school children, etc., etc.

"Your well-known plety and your public efforts to curb all excesses lead the committee to hope that you will cooperate with it."

#### Woodpecker Strikes Match.

When a woodpecker's bill struck match head that had evidently been left by mischlevous boys its nest caught fire and the firemen saved it in St. Louis recently. The bird screamed as the blaze flared up and persons passing Twentieth street and Prospect avenue looked up to see the fire. An nlarm was sounded, and in a few minutes a stream of water was put into play. The woodpecker jumped about in neighboring trees watching the work of the firemen, and when the nest was dried out by the sun later in the day, took up its old abode.

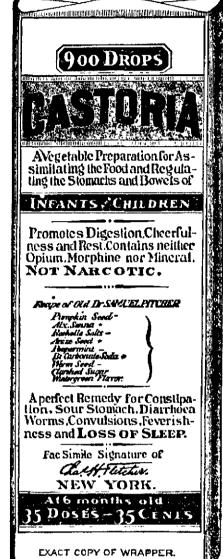

#### Old Nurse's Grave Green.

The grave of the oldest person interred in the vicinity of West Chester, Pa., that of the late Mary Preston, who was 106 years of age at the time ancient steel armor elaborately em- of her death, is a mass of flowers at oellished. It will be placed in the Goshen Baptist cemetery. The aged woman was at one time a nurse in the longed to a feudal Japanese lord family of J. Hoopes Matlack, and for named Odasaqara prominently Menti- 30 years he has decorated her grave fied with Japanese history 300 years lavishly every Memorial day, or at this season.

### Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a maiority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

#### Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an ellicient and speedy remedy."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my, nationia."

Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartily recommend our Castoria to the public as a remedy for children's complaints. I have tried and found it of great value."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria im my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

or J. A. Parker, of Kansas City, Mo., says; "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile aliments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimoniais from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Obio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

#### NEWS FROM THE TABERNACLE (Continued from Page 1.)

In the matter of Allie In Bankruptcy that your names are written in the devils are subject unto you, but rather

I have a great joy and it is this, that conviction to this people.

"The official record of heaven has no are 365 days in the year, and year after year you have rejected the son of God and hardened your heart against him and that is enough to dam any soul in the universe. You are as much in danger of hell as the greatest thief that ever trod the earth. God has record of the names. Jesus Christ stands by and when the books are opened and the names are read he stands sponsor. What a hope for man if he has his name written in the book of life. If your name is not written in the book of life it is in the book of death. Thank God for the bible for it tells the love story of God. God does not tell you to come and give your heart to him and leave your children out, but let all come. It reaches out and takes hold of the father, mother, daughter and son and unites that family together. Hell cannot prevail

"It matters not how far your graves are apart, so your names are written up yonder. There is going to be a reunion that will surpass any of the earthly reunions. If every member of your family have their names written in the book of life with you, my! what a joy over yonder. God help mother, father and wandering boys to think of the home over there.

"And whosoever was not found written in the book of life was cast into a lake of fire,''

#### The Men Service. The greatest gathering of men ever

seen in Ada heard Mr. Oliver's lecture Every man present was a target.

Every man got shot. The bombardment lasted an hour and a half and when the firing had ceased many bodies

#### Sunday Night Service.

The greatest audience that has greeted Mr. Ohver since his coming two weeks ago, gathered at the tabernacle Sunday evening. If the tabernacle has a seating capacity for 2,000 that many heard the message.

His message was jamed at the sinners direct. The sermon was brief but it meeting at the Egypt school house carried conviction. There was more and appointed a tinance committee to interested manifested in response to

Here is his message in part.

#### PEOPLE DISAPPOINTED.

Look forth devoutly, where the noon Many Came To Hear Mr. Debs, but Change Mind.

Many people who came in from the country Saturday to hear the socialist, Mr. Debs, upon learning that there would be an sdmission fee, they rebelled, and refused to hear his lecture. One man said: "I never did pay to hear a man make a political speech and I won't." Another: "I with my family came to hear Debs make a political In fancy here might Pan have lain by speech, not to deliver a 25c lecture" Another; "Not a political argument, but a pay lecture I hear; not my mon-

ey, if you please." Cupid flour, best on earth at Walsh's
